SAIYED AIYATULLAH K.

9825896794 zeelsaiyed12@gmail.com https://www.linkedin.com/in/aiyatullah-saiyed-8b4538251

Education

Parul University B.Tech. - CSE - PIET | CGPA: 8.31 / 10 Vadodara, Gujarat
Jun 2022–2026

12th grade, GHSEB (Percentage: 59/100) Bharuch, Gujarat

Objective

A results-driven Computer Science student with a strong foundation in full-stack development, data structures, and artificial intelligence. Passionate about building scalable applications and solving real-world problems through clean code and smart design. Seeking an opportunity to apply my technical expertise and leadership skills in a collaborative environment that fosters innovation, growth, and meaningful impact.

Technical Skills and Languages

Programming Languages: JavaScript, Python, Java

Frontend Technology: React.js, Next.js, HTML, CSS, JavaScript, Bootstrap, Material UI

Backend Technology: Node.js, Express.js, Flask, Django, MongoDB, MySQL, PostgreSQL, SQLite, Firebase, REST APIs

Machine Learning & AI: TensorFlow, scikit-learn, Natural Language Processing (NLP), Gemini AI, LLaMA models, Prompt Engineering, YOLO

Others: Git, GitHub, Postman, VS Code, JSON, JWT (if needed), Firebase (basic), NPM/Yarn

Experience

Techlozy **May 2025 – Present**
Backend Developer & Team Leader Intern **Remote / Hyderabad, Telangana**

• Leading the backend development of a Learning Management System (LMS) web application with a focus on scalability, performance, and real-time capabilities.
• Designed and built RESTful APIs using Node.js and Express.js to handle user authentication, course management, progress tracking, and assessments.
• Integrated Firebase for user authentication, cloud storage, and real-time database functionalities.
• Managed a team of interns: distributed tasks, reviewed code, and ensured timely sprint deliveries through Agile workflows.
• Worked closely with frontend developers to ensure seamless API integration and consistent user experience.

Projects

• AI Interview Mocker (https://github.com/Aiyatullah/Ai-interview-mocker) | Next.js, Gemini AI, JavaScript, Firebase

Developed a standalone AI-powered mock interview platform to help users practice technical and HR interviews.

Integrated Gemini AI for dynamic question generation and intelligent follow-up queries.

Used NLP to analyze user responses and provide real-time feedback on clarity, accuracy, and confidence.

• Voice Assistant – Neural Havoc (1.0) (https://github.com/Aiyatullah/Neural-havoc) | YOLO, OpenCV, MediaPipe, Text-to-Speech

Built a voice-controlled assistant prototype with real-time gesture control using YOLO-driven object detection.

Implemented MediaPipe for hand tracking and OpenCV for visual processing to enable smooth interaction.

Integrated speech-based control for a more seamless and interactive experience.

• AI-Powered Job Portal (https://github.com/Aiyatullah/UnderGraduate-Job-Potal) | React.js, Flask, MongoDB, LLaMA 3, Gemini AI

Contributed to the development of an AI-integrated job portal enabling smart recommendations and chatbot support.

Integrated Gemini and LLaMA 3 for domain-specific language understanding and interaction.

Worked on full-stack development, building and testing features for responsiveness and performance.

Certifications and Achievements

Achievements

- **Finalist – Toycathon 2022**
- **Gold Medalist – National Science Olympiad (NSO), 2014**
- **Solved 250+ Problems on LeetCode, showcasing strong algorithm and DSA proficiency**

Certifications & Assessments

- **HackerRank – Programming Basic: C, Java, Python – Covered control structures, problem-solving, and algorithms**
- **Computer Networks: Networking, HTTPS – OSI & TCP/IP models, routing, switching, congestion control, security**
- **Theory of Computation: Finite Automata, CFGs, Turing Machines, Decidability**
- **RDBMS & SQL: SQL, DBMS, Oracle, RDBMS – Focused on relational modeling and advanced queries**
- **Prompt Design in Vertex AI: Generative AI, Gemini, Vertex AI – Learned prompt engineering through Google Cloud Exchange Program**
- **Learn JAVA Programming – Beginner to Master**
- **Data Structures Course**

Languages

English (Fluent),Hindi (Native),Gujarati (Fluent),Urdu (Fluent)
